Subject: Application for Digital Channel Application Officer

Dear Hiring Manager,

I am writing to express my interest in the **Digital Channel Application Officer** position. I currently work in the Digital Banking Department at Ahadu Bank, where I have over two years of hands-on experience supporting and implementing digital banking solutions.

In my current role, I am responsible for ensuring the smooth operation of digital banking channels by monitoring systems, investigating technical and operational issues, and coordinating with internal teams, EthSwitch, vendors, and service providers to deliver reliable and secure digital services. My experience includes supporting mobile banking, ATM services, payment systems, and digital transaction processing.

During my time at Ahadu Bank, I have actively contributed to several key initiatives, including the successful deployment of the **Ahadu Lekulu Mobile Banking Application**, Green PIN implementation, Instant Payment System (IPS) integration testing, Cardless ATM transaction testing, SmartVista system monitoring, ATM deployment and validation, and the end-to-end testing and production rollout of the Ahadu School Payment solution.

These responsibilities have enabled me to develop strong knowledge of digital banking channels, end-to-end transaction flows, core banking integration, and REST API-based services. I have also gained valuable experience in application testing, production support, troubleshooting, incident resolution, and collaborating with cross-functional teams to ensure service availability and customer satisfaction.

I am confident that my technical background, problem-solving abilities, and practical experience in digital banking applications make me a strong candidate for the Digital Channel Application Officer position. I am excited about the opportunity to contribute to your organization by supporting and enhancing innovative digital banking services.

Thank you for considering my application. I look forward to the opportunity to discuss how my experience and skills align with your organization's needs.

Sincerely,

Tamrat Assefa
